The
Corkscrew
Rollercoaster,
Rainbow's End,
Auckland, NZ

I could feel the rush of wind blowing through my hair As the cart ran through the corkscrew loop-de-loop at Rainbows End.

This was the first time I had been on a rollercoaster so I was really excited.

I could also feel my intestines lurching around my body. I smelt the vomit and tasted it sliding up my throat, but I quickly swallowed the soon-to-be chunder before it escaped.

The violent screams of the other riders was deafening, but finally the ride was over

I asked my dad, "Do you want to go again?" and he said, "No way!"
